The foregoing pages contain a valuation of the Real and Personal Estates of the inhabitants of the Town of South Scituate, and the non-resident proprietors of said town, the present year. Also a copy of the State, County, and Town tax, assessed on the polls and estates of the inhabitants of said Town, and the non-resident proprietors, according to the law granted by the last General Court of the Commonwealth of Massachusetts, and in accordance with a vote passed at the last annual meeting of the inhabitants of said Town, holden in March. Each one has his proportion of said taxes set against his name, amounting to seven thousand three hundred and thirty-eight dollars and thirty-four cents; also the school books, amounting to twenty dollars and ninety-four cents; also the highway arrears, amounting to two hundred and three dollars and fourteen cents; making a total of seven thousand five hundred and sixty-two dollars and forty-two cents. And we have prepared bills of the same, and committed them to Walter Foster, Treasurer and Collector, to be collected and paid over, agreeably to the order of said General Court, and the vote of said Town.

VALUATION

OF THE

TOWN OF SOUTH SCITUATE,

FOR THE YEAR 1885,

TOGETHER WITH THE

THIRTY-SIXTH ANNUAL REPORT

OF

THE SELECTMEN, OVERSEERS OF THE POOR,
TREASURER, COLLECTOR, SURVEYORS
OF HIGHWAYS, AND TOWN CLERK.

BOSTON:
ALFRED MUDGE & SON, 24 FRANKLIN STREET.
1886.

To the Tax-Payers of South Scituate:

By a vote of the town, passed at the annual meeting in March last, the Assessors were instructed to make a thorough valuation of the taxable property in town, and that the same be printed and distributed to the tax-payers.

In submitting this valuation, we wish to say that we have endeavored to appraise the property at an equal value, and as near as possible, at a fair market value, considering the location of the same.

In doing this work, we have no doubt often erred in judgment, as the sale of property often depends on the views of the purchaser; and property, perhaps, has been or may be sold for less than our valuation, yet the reverse has been in some cases since our appraisal.

Since 1860, the law relating to taxation of personal property has been changed. Now savings-bank deposits, national bank, and corporation stocks are taxed by the Commonwealth, and the tax refunded to towns and cities where the persons owning them reside; and it will be seen that the names of many who appeared on the valuation book of 1860, and who were assessed for large amounts of personal property, are now exempt from local taxation. Yet we have quite a large amount on our books at the present time, and when the tax-payer failed to furnish us with a list our own judgment had to determine the amount.

The valuation of the real estate is $661,269; personal, $209,910; total valuation, $871,179. Number of polls, 445; acres of land taxed, 12,340; number of dwelling-houses, 430; cows, 282; horses, 323; neat cattle, other than cows, 84; swine, 107.

The tax rate being $1.02 on $100, the amount of any tax can be easily ascertained; and, as the rate of taxation changes from year to year, we have not thought it advisable to print the amount of each individual tax, as by so doing the expense for printing would be largely increased.

Respectfully submitted,

CHARLES A. LITCHFIELD,
RICHARD P. BRIGGS,
CHARLES SIMMONS,

Assessors.

VALUATION.

ANNUAL REPORT

OF THE

SCHOOL COMMITTEE

OF THE

TOWN OF NORWELL

FOR THE YEAR 1910

School Report

To the Citizens of Norwell: —

In presenting to you our annual report, we ask you to especially notice our Roll of Honor.

Of the 227 children attending our schools, two have not been absent for three years, one for two years, ten for one year, twenty-six for two terms and fifty-eight for one term. We think this a very good record, much better than in former years. Let the good work continue and you will soon notice a vast improvement in scholarship also.

During the past year we have lost several teachers who had served us faithfully and well. Miss Scully, (Dist. No. 1, Grammar), Miss Rogers, (Dist. No. 1, Primary), Miss Burns, (Dist. No. 6, Primary) and Miss Ripley, (Asst. High School), all left us at the close of school in June. Of the four teachers hired for these vacancies, only two are with us at the present time. The High School asisstant hired for the position, after promising to stay a year, stayed four days, and when the Committee refused to release her until a successor should be found, managed to drag through three more days, although under protest. The teacher (a Normal graduate) hired for No. 6 Primary, stayed ten weeks, but at the end of one week she wanted to leave, and frankly said she should do so at the first opportunity.

How much interest do such teachers take in the schools over which they have charge? We have about come to

the conclusion that what are needed for country schools, are country girls trained for the positions, city girls or girls from thickly settled places, do not understand the conditions of country life and very seldom take kindly to it. Such is the opinion of Mr. Baldwin, Principal of the Hyannis Normal School, for in the latest report of the State Board of Education, he says:

"Some normal school graduates do now teach for a short time in country schools, but for the most part they are not the best teachers; they are often city bred, knowing nothing of country needs; and in every case no special preparation has been given to fit them to teach in country schools. It seems to me desirable that one or two of the Normal schools of this State shall offer a special one year's course to prepare young men and young women to teach in country schools."

A list of our teachers, with salaries paid at the present time is as follows:

F. W. Carrier, Principal High School, $1100 per year.

Mary G. Magner, Ass't in High School, $500 per year.

Gertrude M. Short, Ass't in High School, $500 per year.

Abbie E. Cutting, Grammar School, Dist. No. 1, $48 per month.

Gladys J. Mitchell, Primary School Dist. No. 1, $42 per month.

Eleanor E. Elliott, Grammar School Dist. No. 5, $48 per month.

Marion G. Merritt, Primary School Dist. No. 5, $44 per month.

Mabel E. Adams, Primary School Dist. No. 6, $40 per month.

Maria W. Tolman, Primary School Dist. No. 7, $44 per month.

Bertha M. Tilden, Drawing Teacher, $125 per year.

The wages of our teachers have been increased the past year and will have to be again advanced in the near future, to meet the increased cost of living and to keep with us good teachers.

Mr. Hayes, our efficient Superintendent, remained with us this year, and, in recognition of his faithful services and to show our appreciation of them, at the meeting of the Joint Committee of Hanover, Hanson and Norwell, he was given an increase in salary of $100, this amount to be divided equally between the three towns. Mr. Hayes has a most pleasing manner in the school room and is equally at home in Primary, Grammar or High School. His visits are eagerly looked forward to by the pupils in all grades and his criticisms quoted on all occasions.

Mr. Hayes not only attends to affairs within the buildings but also to the condition of the different rooms and outbuildings, suggesting repairs and improvements and trying to make the pupils realize that they should have a care over the town's property, that these buildings are for use and not abuse.

The school house in Dist. No. 7 received some much needed repairs during the long vacation, including shingling, new plastering, painting the walls and many minor repairs so that now it is in good condition and will need nothing further for some time.

Two new stoves were placed in Dist. No. 1 schoolhouse, the old ones being pronounced unsafe by the plumber.

We are hoping the coming year to add a course in music to our studies with a special teacher for the same as is done in all the neighboring towns. Several of our teachers have done quite a little along this line already, especially in the lower grades.

Even the first year pupils are always pleased with the singing and if it were carried right along through all the grades, it would become as much a matter of course as the

study of arithmetic, or any other essential study.

We wish we could persuade the parents and guardians of the pupils to visit the school room during school hours and observe the work that is being done. It is a habit, we are sorry to say, for people to report what mischief is going on in the schools, but very, very seldom what work is being done. For instance, a pupil comes home at night with a tale of what mischief he has done during the day, does the parent punish him ? No, in the majority of cases the parent will immediately proclaim to everyone with whom he comes in contact as to what a failure that school is and the teacher is the "worst ever". And again, if a child is punished (as all children have to be) no matter what the punishment may be, instead of waiting to hear the facts in the case or even the other side of the story, the teacher is immediately arraigned as "unfit to teach a school", and should be summarily dismissed from her position.

Parents, remember that there are many hours in a school day and something is going on the greater part of the time besides mischief, if not, you are the one primarily to blame for not making your children see that their time is to be spent in getting an education and not in fun.

The most criticisms, and the most unjust criticisms of our school system, come from those people who understand the least about schools and who haven't taken the trouble to visit a school room for years and also find it an impossibility to control their own children at home, yet expect the teacher to transform them into young ladies or young gentlemen without any trouble.

Our annual events, the exercises in commemoration of Memorial Day and the Graduation of our High School seniors, passed off very successfully, both events reflecting much credit on pupils and teachers. Did you ever attend the Memorial exercises ? If not, do so next year

and we are sure you will be amply rewarded. It makes such a splendid opportunity for all our schools to come together (the only one during the school year) and each school strives to do its very best. The children look forward to it for weeks and the teachers seldom find a child unwilling to speak or sing at Decoration.

And do we not all feel proud as we see those young ladies and gentlemen of our High School take their places on the platform for their graduating exercises ?

After thirteen years of faithful effort now comes their reward. Just think what they must have gained during these years, not alone knowledge from books, but lessons in strength and courage to meet the battles of life. As we hear of the success which has attended many of our graduates since our High School was established we say with pride, "Long live the Norwell High School, may its work prosper more and more and its graduates go out to fill honored places in the community".

Respectfully submitted,

BENJAMIN LORING,
GEORGE C. TURNER,
MARY E. CURTIS,
School Committee of Norwell.

Superintendent's Report

To the School Committee of Norwell:—

I herewith respectfully submit my third annual report.

The policies governing the conduct of the schools have not changed during the past year. My efforts have been directed toward increasing the efficiency of both teachers and pupils.

The school system is constantly before the public mind not in its ordinary aspect as quietly carrying on its function, but as an object for criticism. Criticism is always welcomed when fair, but when it is along fault finding lines it should not be tolerated.

What we need is not less criticism of the public schools, but more carefully considered criticism, the kind of helpful, practical criticism which a man applies to his own business affairs.

The public school is quite a business proposition today. Those in charge must figure as closely as they would in their own interests, not only the financial side but they must save just as much of the childeren's time as possible, putting the minutes gained into something of real future use.

The present time seems to be a period of unrest, and we look for some radical changes in the future.

ATTENDANCE

Regularity and punctuality are doing much for some of the children, and it is the wish of those in charge, that these two

school virtues could be so strongly inculcated into the minds of the pupils that a fixed habit would result.

MEDICAL INSPECTION

No disease has become epidemic in our schools the past year, due partly to our system of medical inspection, and to the alertness of those in charge.

"To safeguard the public health by practical attention to the physical condition of the child is the aim of this branch".

Eye and ear tests are accomplishing a vast amount of good, and parents now take notice when an adverse report is sent home regarding their child. Our inspection should go farther and include the teeth.

GENERAL SUBJECTS

A more definite system of penmanship is being tried this year. It is based on the medical slant with muscular movement. Some good results have been shown. Spelling books were introduced last term, and oral and written spelling are being given thorough trial.

Parents' day in No. 5 showed how the pupils in that school have improved in drawing. The improvement is noticeable in nearly all our schools.

TEACHERS

Three new teachers began work in the grades in September, two at No. 1, and one at No. 6. The teacher at No. 6 accepted a one grade room in Maynard, and left after two months' service here.

The grammar school at No. 1 is going along smoothly, working on much the same lines as last year. The pupils of this school, encouraged by their teacher, have placed a piano in their room. There may be some doubt as to the wisdom of

the manner of securing the necessary funds, but the pleasure derived from the instrument has been very noticeable.

Primary No. 1 was in charge of a new teacher, but on a visit to her home she became infected with scarlet fever. The room is now in charge of Mrs. Martha Ford who had taught the grammar class successfully for some years past.

The appearance of the building and yard is not artistic, and something should be done to improve them.

On the whole the schools are doing fairly well; like our lives there are good and bad days.

HIGH SCHOOL

J. W. McDonald, agent of the Board of Education, visited us in October. He was at his best. He visited each of the teachers during class recitation, and gave some advice regarding the benefits of an education, illustrating his points with anecdotes and facts.

The teachers are giving their best efforts to the work, and practical value is being shown in the results.

Progress in education comes slowly. Some parents think nothing is being done, because their boys' conversation is regarding the fun they have, rather than the lessons they learn.

The work is so organized that direct interference is rarely needed. It is true that when the least is being heard from the schools they are often doing most efficent work.

The advantages of a High School education cannot be too strongly emphasized. Some of our boys are restive under restraint and are anxious to break away. But past history will show that certain individuals will obtain their education in no other way than by contactwith the world.

"We may test the extent and accuracy of knowledge acquired, and record our conclusions by symbols of one kind or another, but the efficent teacherdoes a far higher and more important work. In the awakening of interests, the implanting

of motives, in refining the feelings, in training the will; in such activities as these which go far to dertermine what manner of men and women the boys and girls now in school shall by and by become, is to be found the true glory of the school''

Our courses are a little broader than last year and a class in German has been added.

On the horizon appears ''something'' which seems to tell the approach of a change in our courses, and supplementing with physical effort for the training of hand as well as mind. One can never be well educated by means of books alone.

The Commissioner of Education is a firm believer in vocational training.

I wish to thank you for your counsel and co-operation, and the teachers for their ready responses to suggestions.

JAMES S. HAYES,
Supt. Schools.

Report of High School Principal

To the Superintendent of Schools:—

Herewith find my second annual report.

Some improvement seems evident. The scholarship of the school as a whole is better than last year; all of the scholars except five seem interested in their work and are therefore, doing about their best. The order is much improved. More seem to desire to attend higher institutions of learning than last year, and all seem to have higher ideals.

German has been placed in the curriculum to meet the requirements of higher institutions of learning. Rhetoricals have also been added to give practice in public speaking and in English composition and also to arouse an interest in current events of importance. An attempt is being made to make the subjects, especially science and mathematics, practical.

More of the sciences directly applicable to rural life both in the house and out or it ought to be taught but this would require a teacher especially prepared for this kind of instruction. It seems as if three or four of the High Schools in this vicinity could jointly employ a teacher for this purpose, thus making the expense small for each.

It is unpleasant duty to call the attention of the citizens of Norwell to the fact that the heating apparatus in the main room is inadequate. When the weather is cold and windy it is impossible to keep this room comfortable enough to study

in; near the stoves it is too warm and a few feet away it is too cold. Under such conditions, the air is probably impure. If a furnace should be put in, a laboratory could be easily fitted up in the basement; thus doing away with the necessity of conducting a recitation in one end of a room and having experiments on physics and chemistry in the other.

We take this opportunity to thank the Superintendent, the Committee, the barge drivers and the citizens of Norwell for their kindness and co-operation in our work.

Respectfully submitted,

F. W. Carrier.

Report of Drawing Teacher

To the School Committee of Norwell:—

I have been asked to write a short report concerning the work in drawing in the schools of Norwell.

It has been my purpose to make the pupils see the value of this work and to put before them, problems which they would be apt to meet, not in the few years which they remain in the protection of home and school life, but when they leave the home influence to provide for themselves.

Although the hours for the subject in drawing are very limited with no special time for manuel training, I have endeavored to combine the work. This gives the students practice in drawing objects, as well as some training in the manner of putting parts together.

I have aimed to make the work in the drawing course interesting as well as beneficial, and find much better work is accomplished by the pupils who realize the great benefit which is derived from a special subject of this kind. As the classes are coming to appreciate this more and more, the outlook for the future is constantly growing more promising.
